## Testimonials

**Marko Kauppinen**, *CEO Health4Travel, Finland And Netherlands*

Diya Interactive has made offshore talent much more accessible than I initially expected.

Working together has truly transformed our approach to problem-solving, turning every challenge into an opportunity for collaboration and growth, even outside the realm of code.

**Moa Göransdotter**, *CEO Tryva, Sweden*

Ensuring the safety of our clients tenants and properties is our top priority, and Diya Interactive has played a crucial role in making this a reality.

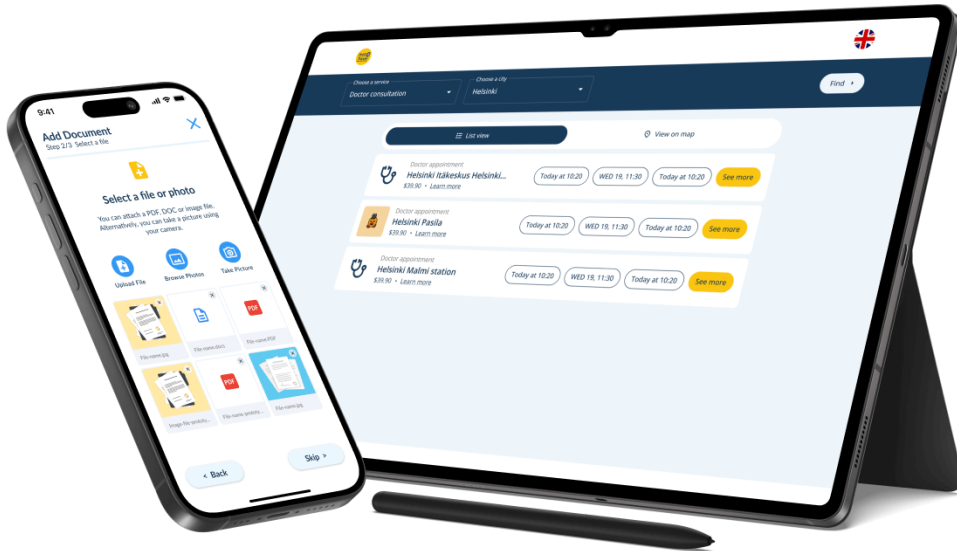

The best part? Diya Interactive has always felt like part of our own team, supporting us every step of the way. I can't recommend them enough!"

**Victor Axelsson**, *CTO Kliently, Ex CTO Mindler. Sweden*

We needed to scale the Kliently team without knowing exactly how much or for how long. We started with QA resources and quickly grew the partnership to also include Design & UI/UX.

Just a few days after initially reaching out, we already had a helping hand in our team, getting onboarded to our own processes and systems.

## Health4travel BV, Netherlands

Health4travel is a marketplace and a b2b platform to connect holiday and corporate travellers with doctors. This is a multi lingual platform localised for European market. Health4travel was struggling to build a tech team and Diya Interactive has provided them with offshore tech team to build and maintain their digital products.

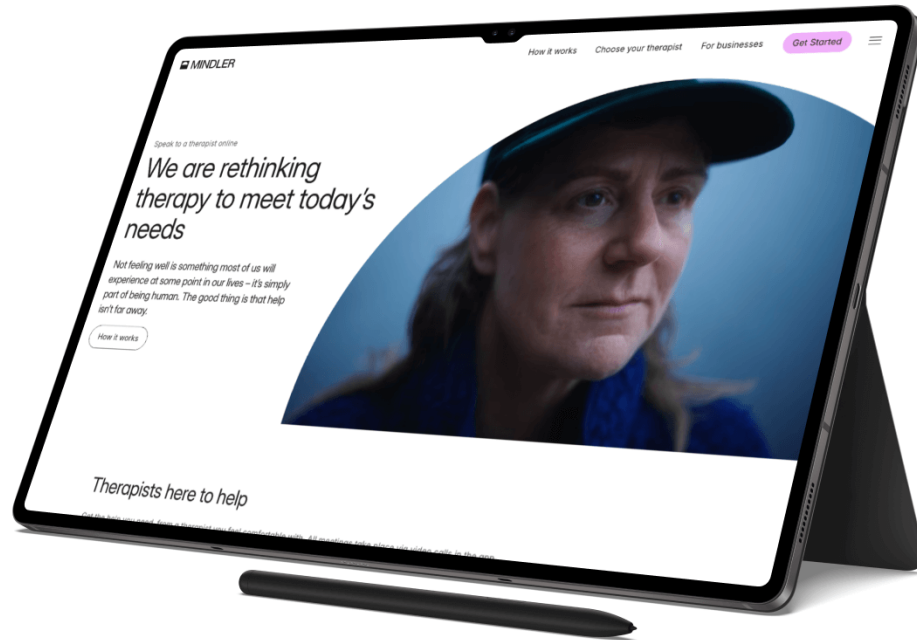

## DBTune.AI AB, Sweden

DBTune is an AI-powered platform designed to optimize databases for low latency and high throughput. To accelerate their growth in the Nordics, DBTune sought to expand their team with additional developers. Diya Interactive stepped in to provide skilled offshore developers, enhancing their capacity and speeding up project delivery.

## Mindler AB, Sweden

Mindler, a leading Swedish mental health platform, offers accessible online therapy through its user-friendly app. When their QA team faced a temporary gap due to parental leave, Diya Interactive stepped in to provide skilled QA Engineers. This support ensured that Mindler maintained their commitment to quality and continued to deliver a seamless user experience during a critical period of growth.

## Sportscom AB, Sweden

Sportscom.live is a dynamic online platform dedicated to live audio streaming, providing listeners with access to multiple sources of professional and fan commentaries. Diya Interactive played a crucial role in the product design and supplied a skilled tech team to build and manage the platform's operations, ensuring a seamless and engaging experience for its users.

## MediQ, KSA

MediQ Smart Healthcare is a pioneering Digital Healthcare Platform, revolutionising healthcare delivery by offering convenient on-demand and cashless walk-in services through its physical panel and user-friendly digital platform on a global scale. MediQ needed to expand their UI/UX, Branding and Project Management capacity and engaged Diya Interactive as their offshore partners to provide this team.
